NATIVE FERNS

A good collection of hardy native Ferns suitable for park and cemetery planting, including the following varieties:

Adiantum pedatum, Aspidium acrostichoides, Aspidium marginale,	Aspidium spinulosum, Dicksonia punctilobula, Oncoclea sensibilis,	Osunda, in 3 vars., Polypodium vulgare, Pteris aquilina.
---	--	---

Strong, nursery-grown clumps at \$4 per 100, \$35 per 1,000; collected at \$10 to \$15 per 1,000.

Also a rare collection of California Ferns, some never offered before. Write for list.

AMPELOPSIS ENGLEMANII

This is the clinging form of the well-known *Virginia Creeper*, and was introduced by us several seasons ago. The leaves are much thinner and smaller than in the ordinary variety, and the whole plant lacks the coarseness that characterizes the *A. quinquefolia*, and it clings to walls like the ivy. The fall coloring is exceedingly brilliant, and in every way it is vastly superior to the common form, which is not used where the new variety is known and can be had. A fine stock ready for fall delivery.

	Per 100	Per 1,000
Strong	\$4 00	\$35 00
Heavier	7 00	60 00

GINSENG (*Aralia quinquefolia*)

A new and revised edition of my illustrated pamphlet on the subject of **Ginseng culture** will be mailed on receipt of 10 cents. This is the best work published, and gives full instructions, enabling anyone to grow this extremely valuable root. **Price-list of seeds and plants free.**

ALL THE BULBS AND PLANTS listed above can be expressed during August and September, or can be held and shipped with orders for trees and shrubs in October and November, but orders should be placed now to insure stock being reserved.

HARDY AMERICAN SHRUBS AND TREES

Our stock of fine and rare plants for fall delivery is larger than ever, and the season being exceptionally favorable, it has made an extra strong, vigorous growth. A splendid variety of **Azaleas, Andromedas, Hemlocks, Leiophyllums, etc.** Write for special advance prices.
